# **⋮** APPLICATION PERMISSIONS

PERMISSION	STATUS	INFO	DESCRIPTION
android.permission.WRITE_EXTERNAL_STORAGE	dangerous	read/modify/delete external storage contents	Allows an application to write to external storage.
android.permission.READ_EXTERNAL_STORAGE	dangerous	read external storage contents	Allows an application to read from external storage.
android.permission.INTERNET	normal	full Internet access	Allows an application to create network sockets.
android.permission.ACCESS_NETWORK_STATE	normal	view network status	Allows an application to view the status of all networks.
com.android.vending.BILLING	normal	application has in- app purchases	Allows an application to make in-app purchases from Google Play.
android.permission.ACCESS_WIFI_STATE	normal	view Wi-Fi status	Allows an application to view the information about the status of Wi-Fi.
android.permission.WAKE_LOCK	normal	prevent phone from sleeping	Allows an application to prevent the phone from going to sleep.
com.google.android.gms.permission.AD_ID	normal	application shows advertisements	This app uses a Google advertising ID and can possibly serve advertisements.

PERMISSION		INFO	DESCRIPTION
android.permission.ACCESS_ADSERVICES_TOPICS		allow applications to access advertising service topics	This enables the app to retrieve information related to advertising topics or interests, which can be used for targeted advertising purposes.
android.permission.ACCESS_ADSERVICES_ATTRIBUTION	normal	allow applications to access advertising service attribution	This enables the app to retrieve information related to advertising attribution, which can be used for targeted advertising purposes. App can gather data about how users interact with ads, such as clicks or impressions, to measure the effectiveness of advertising campaigns.
android.permission.ACCESS_ADSERVICES_AD_ID		allow app to access the device's advertising ID.	This ID is a unique, user-resettable identifier provided by Google's advertising services, allowing apps to track user behavior for advertising purposes while maintaining user privacy.
com.google.android.c2dm.permission.RECEIVE		recieve push notifications	Allows an application to receive push notifications from cloud.
com.google.android.finsky.permission.BIND_GET_INSTALL_REFERRER_SERVICE		permission defined by google	A custom permission defined by Google.
com.applovin.array.apphub.permission.BIND_APPHUB_SERVICE		Unknown permission	Unknown permission from android reference
com.easybrain.find.word.games.DYNAMIC_RECEIVER_NOT_EXPORTED_PERMISSION	unknown	Unknown permission	Unknown permission from android reference

# **Q** MANIFEST ANALYSIS

HIGH: 2 | WARNING: 11 | INFO: 0 | SUPPRESSED: 0

NO	ISSUE	SEVERITY	DESCRIPTION
1	App can be installed on a vulnerable unpatched Android version Android 7.0, [minSdk=24]	high	This application can be installed on an older version of android that has multiple unfixed vulnerabilities. These devices won't receive reasonable security updates from Google. Support an Android version => 10, API 29 to receive reasonable security updates.
2	Clear text traffic is Enabled For App [android:usesCleartextTraffic=true]	high	The app intends to use cleartext network traffic, such as cleartext HTTP, FTP stacks, DownloadManager, and MediaPlayer. The default value for apps that target API level 27 or lower is "true". Apps that target API level 28 or higher default to "false". The key reason for avoiding cleartext traffic is the lack of confidentiality, authenticity, and protections against tampering; a network attacker can eavesdrop on transmitted data and also modify it without being detected.
3	App has a Network Security Configuration [android:networkSecurityConfig=@xml/modules_network_security_config]	info	The Network Security Configuration feature lets apps customize their network security settings in a safe, declarative configuration file without modifying app code. These settings can be configured for specific domains and for a specific app.
4	Application Data can be Backed up [android:allowBackup=true]	warning	This flag allows anyone to backup your application data via adb. It allows users who have enabled USB debugging to copy application data off of the device.
5	Activity (com.easybrain.template.SplashActivity) is not Protected. [android:exported=true]	warning	An Activity is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device.

NO	ISSUE	SEVERITY	DESCRIPTION
6	Activity (com.amazon.device.ads.DTBInterstitialActivity) is not Protected. [android:exported=true]	warning	An Activity is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device.
7	Broadcast Receiver (com.easybrain.AppVisibilityReceiver) is not Protected. [android:exported=true]	warning	A Broadcast Receiver is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device.
8	Broadcast Receiver (com.google.firebase.iid.FirebaseInstanceIdReceiver) is Protected by a permission, but the protection level of the permission should be checked.  Permission: com.google.android.c2dm.permission.SEND  [android:exported=true]	warning	A Broadcast Receiver is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. It is protected by a permission which is not defined in the analysed application. As a result, the protection level of the permission should be checked where it is defined. If it is set to normal or dangerous, a malicious application can request and obtain the permission and interact with the component. If it is set to signature, only applications signed with the same certificate can obtain the permission.
9	Service (androidx.work.impl.background.systemjob.SystemJobService) is Protected by a permission, but the protection level of the permission should be checked.  Permission: android.permission.BIND_JOB_SERVICE [android:exported=true]	warning	A Service is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. It is protected by a permission which is not defined in the analysed application. As a result, the protection level of the permission should be checked where it is defined. If it is set to normal or dangerous, a malicious application can request and obtain the permission and interact with the component. If it is set to signature, only applications signed with the same certificate can obtain the permission.

NO	ISSUE	SEVERITY	DESCRIPTION
10	Broadcast Receiver (androidx.work.impl.diagnostics.DiagnosticsReceiver) is Protected by a permission, but the protection level of the permission should be checked.  Permission: android.permission.DUMP [android:exported=true]	warning	A Broadcast Receiver is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. It is protected by a permission which is not defined in the analysed application. As a result, the protection level of the permission should be checked where it is defined. If it is set to normal or dangerous, a malicious application can request and obtain the permission and interact with the component. If it is set to signature, only applications signed with the same certificate can obtain the permission.
11	Broadcast Receiver (androidx.profileinstaller.ProfileInstallReceiver) is Protected by a permission, but the protection level of the permission should be checked.  Permission: android.permission.DUMP [android:exported=true]	warning	A Broadcast Receiver is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. It is protected by a permission which is not defined in the analysed application. As a result, the protection level of the permission should be checked where it is defined. If it is set to normal or dangerous, a malicious application can request and obtain the permission and interact with the component. If it is set to signature, only applications signed with the same certificate can obtain the permission.
12	Activity (com.amazon.aps.ads.activity.ApsInterstitialActivity) is not Protected. [android:exported=true]	warning	An Activity is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device.
13	Broadcast Receiver (com.mbridge.msdk.foundation.same.broadcast.NetWorkChangeReceiver) is not Protected. [android:exported=true]	warning	A Broadcast Receiver is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device.
14	Broadcast Receiver (com.ogury.core.internal.LogEnablerReceiver) is not Protected. [android:exported=true]	warning	A Broadcast Receiver is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device.

#### **Description:**

Word Find blends word puzzles with strategy, turning every move into a battle of vocabulary, logical thinking, and strategic planning. Build words, claim letter tiles, and win by earning more points than your opponent. Word Find offers a fresh take on word search games that keeps every match exciting, giving an opportunity to think ahead and outplay your rivals. Why You'll Love Word Find: • Word Games Meet Strategy Forming words isn't enough — playing them at the right moment makes all the difference. Capture more tiles and score more points than your opponent with carefully thought out moves. Word search and tactical decision-making come together and keep every word game match fresh and exciting. This is what makes Word Find a gem among numerous other letter games. • No Pressure Gameplay Enjoy a relaxed word puzzle experience with no timers or time limits. Each move is an opportunity to flex your vocabulary and carefully plan your next steps at your own pace. A combination of relaxed word search and spelling mechanics makes free word games for adults both rewarding and relaxing. • A Word Game That Is Easy to Play, But Hard to Master Tap letters, build words, and claim tiles with easy-to-learn mechanics. However, the more you play word puzzles, the deeper the strategy becomes. Playing against an opponent adds an extra layer of fun to each round in these free word search games, putting your playing skills to the test. • Challenge Your Mind with Every Letter Game Match Each word search round requires knowledge, creativity, and tactical thinking. Competitive word puzzle games offer an experience that rewards both vocabulary and strategy. Spelling games for adults challenge your focus, memory and thinking skills, where smarter word tiles placement leads to higher scores. How to Play Word Find: • Form words by selecting letters on the board. The longer the word, the more letter tiles you capture. • Blue tiles belong to you and add to your score. Red tiles add points to your opponent but can still be taken if used in a word. • In order to score more points, capture unclaimed letters or steal them from your word puzzle opponent. Gaining control of key tiles helps shift any word games match in your favor. • The more tiles you control and the longer your words, the higher your word puzzles score. • Win word games for free by reaching the target score before your opponent. Word Find games bring the thrill of competition together with the rewarding experience of word collect, ensuring that every match feels unique and engaging. How to Master the Word Find Game? Strong vocabulary helps, but strategy wins this words game. Outsmart your opponents, find the highest-scoring words, and control the board with bold decisions. Word games for adults provide both

challenge and entertainment, with plenty of ways to sharpen vocabulary and decision-making skills. Explore endless word search free battles, and improve your competition tactics while playing letter games. Every match is a chance to test your word scramble skills, find tricky anagrams, and claim victory over your opponents. Start playing word spelling games today and see how many word battles you can win! Terms of Use: https://easybrain.com/terms Privacy Policy: https://easybrain.com/privacy
